Bantam Ball. For use with 1/8" hose. Supplied with four 30° rear jets and one forward jet. The rounded shape facilitates easy access through traps and tight ells and smooth retrieval from offset pipe and pipe joints. Available without a forward jet.

Dimensions: 7/8" dia. x 0.8" lg.

\$63.00 ea. plus applicable California sales tax (if shipped to a California destination) and UPS shipping.

Acorn Blaster. Similar in design to the Acorn Penetrator shown above. For 3/8" and 1/2" hose fittings. Four rear jets at 15° and three forward jets drilled at 5° off center.

Designed to push material down lines and penetrate hardened deposits including ice and grease blocks in small diameter pipe

Dimensions: 5/16" dia. x 1" lg.

\$92.00 ea. plus applicable California sales tax (if shipped to a California destination) and UPS shipping.

Acorn Excavator. Like the Acorn Blaster, this nozzle has three forward jets drilled at 5° off center but has no rear thruster jets.

Use with hand held guns and lances for hydro-excitation or to remove thin mil scale, grease and paint from smooth or porous hard surfaces.

\$92.00 ea. plus applicable California sales tax (if shipped to a California destination) and UPS shipping

All nozzles are custom drilled to meet your pressure and flow specifications.
